

February 1, 2010

On February 17<sup>th</sup> 2009, The American Recover and Reinvestment Act was signed by President Obama which modified tax credits available to homeowners for installing qualified energy-efficient exterior doors and windows. In order for homeowners to receive the available tax credit, the products must meet the requirements of a U-Factor of .30 or less and a Solar Heat Gain Coefficient (SHGC) of .30 or less.

The products must be purchased and installed on the taxpayer's primary residence in the United States from January 1, 2009 through December 31, 2010 and have a life expectancy of at least five (5) years. Below is a listing of products from Tucker Door & Trim Corp. that qualify with their respective U-Factor and Solar Heat Gain Coefficient ratings as determined by National Fenestration Rating Council (NFRC) guidelines

Based on these NFRC ratings, Tucker Door & Trim Corp. has determined the following products qualify for the credit allowed to homeowners under Section 25C. All product sizes qualify with the listed options and configurations.

This statement is to be kept with your receipts for tax purposes

For more information about the energy tax credit, please consult a tax professional

# Tucker Door & Trim

## Limited Window Warranty

Warrants to the original purchaser and the original homeowner of the following Tucker Door & Trim window products:

1. Replacement of any defective wood window frame component or wood sash frame component for 1 year from the date of purchase.
2. Replacement of any composite, solid vinyl, or vinyl clad window frame component or any composite, solid vinyl, or vinyl clad sash frame component found to be suffering from rot, fungal decay, warping, splitting, cracking, checking, peeling, blistering, rust, delaminating, or termite or insect damage for 25 years.
3. Replacement of components of any defective window balance system or hardware for 1 year from the date of purchase.
4. Replacement of glass in any solid vinyl, composite, or wood boot glazed insulated window found to be suffering from seal failure for 20 years.
5. Replacement of glass in any product other than a solid vinyl window sash or wood boot glazed insulated window found to be suffering from a seal failure for 5 years from the date of purchase.
6. Replacement of wood or PVC SDL bars found released from insulated glass due to adhesive failure for 1 year from the date of purchase.

Tempered glass may break or shatter without apparent cause, and is therefore **NOT** covered by this limited warranty.

Use of properly applied removable grills does not void the warranty, but TDT will not replace grills under the warranty.

The application of a window coating or film will void the warranty.

Labor and materials for painting or refinishing are not covered.
